

## Succes Stories

# *Logistics: Outsourcing of individual software*

We are a medium-sized logistics service provider and rely on *customized software* from BrixWare for our market position, which supports all our essential processes, from the *online webshop* to invoicing.

Since no standard products are available in our market environment and we design strategies with software, we have been working with BrixWare for many years in a very *direct, uncomplicated and successful way*.

We deliver the visions, goals and deadlines. BrixWare contributes the *know-how*, the environment and the *manpower*.
